

ISRAEL AND ME

OVERVIEW

CTEEN U IS A JOINT INITIATIVE
OF YESHIVA UNIVERSITY
AND THE CHABAD TEEN NETWORK

LESSON 1

This Land is My Land...Right?

If it's the country that has our name on it, why is there so much fighting over exactly who owns Israel? What are our legal claims to the land?

LESSON 2

Hello My Name Is The Promised Land

Slow down and dig deep as we analyze our Torah-based relationship to the holy land. Spoiler alert: it's the inheritance that's essential to the Jewish mission.

LESSON 3

Life Before 1948

Israel has been Israel way before 1948. Buckle up for a lightning fast ride through 4,000+ years of the holy land's history

LESSON 4

The Miracle of Israel

Time and again, when Israel falls down, she always gets back up.

Here we spill the tea on Israel's against-all-odds survival.

LESSON 5

Like A Good Neighbor

After a terrorist attack Israel's often accused of overreacting. Countries give Israel the economic silent treatment for what they call apartheid. But is that fair? Here, you be the judge on Israel's moral choices.

LESSON 6

All's Fair in War

Meet the IDF, the most ethical army in the world. In this class we pull back the curtain on the inner workings behind Torah-based warfare. It's like, fight—but make it nice.

LESSON 7

The Other Side to the Story

Let's see: if the enemies of Israel would put down their weapons, there would be peace. If Israel would put down their weapons... there would be no Israel. Peek into terrorists' indoctrination and see the danger for yourself.

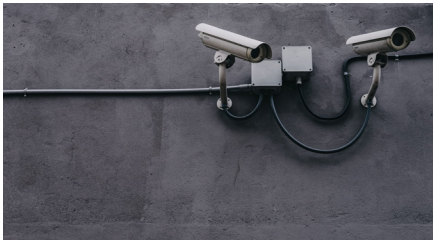

LESSON 8

How to Make Peace

It takes two to tango, so what's on the flip side of the Israeli-Palestinian conflict? Let's get a full picture from all angles so we can understand the true paths to peace.

LESSON 9

Faithful and Fortified

Let's all make up and be friends, right? Kind of. The thing is, peace can't threaten a country's safety. All for security first, peace second, respond with the thumbs up emoji.

LESSON 10

The UN Connection

If we had to describe the relationship between Israel and the UN, it would check the box of "It's complicated." Here's the he-said she-said version of 74 years of UN-Israel cooperation... and otherwise.

LESSON 11

The Gifts of the Land of Israel

Anyone hating Israel has obviously never tried shawarma. Seriously though, let's stop playing defense and get schooled in all that Israel has to offer. (Starting with hummus, obviously.)

LESSON 12

Why The News Doesn't Like Israel

News happens, and the media reports it. Simple, right? Except, why don't the stories always add up? Learn how to spot bias and what to do about it.

LESSON 13

The Origins of Anti-Semitism

If anti-Semitism has been around years before Gen Z, then when did it start, and why? Hate is a strong word, but it's time to know everything about the spiritual source of the people who really really really don't like us.

LESSON 14

Stand for Israel

This class is an in-depth training on how to become the Jewish homeland's most articulate and confident advocate, on campus and beyond. Because if you're not at the table, you're on the menu.
